

Announcement

The Rt Hon. Sir Anthony May was involved in a serious accident four weeks ago in Central London and is recovering in hospital.

Because of the importance of his oversight role the Prime Minister has asked the Rt Hon. Sir Paul Kennedy to stand in as interim Interception of Communications Commissioner whilst Sir Anthony is recovering. The Rt Hon. Sir Paul Kennedy served as the Interception of Communications Commissioner between April 2006 and December 2012.

IOCCO has a team of eight Inspectors who carry out the lawful interception and communications data inspections on behalf of the Commissioner and the inspections and inquiries will continue as normal.

Sir Anthony and his family are very grateful for the messages of support that they have received.

Joanna Cavan, Chief Inspector, IOCCO
